Know more about “Denim Like Cashmere” :

Denim's history can be traced back to 1945, a manuscript about Fustian craftsmanship. Fustian adopts a 2×1 structure and the weft yarn is used for blue dyeing. Now the DENIM we use usually uses a 3×1 structure, and the veil is dyed in the blue. Since the 16th century, Denim has been used to create an indestructible work suit. It started in Europe at the end of the 16th.

In 2025, EWSCA continued to innovate boldly, allowing pure natural plant fibers to wrap pure natural animal fiber Cashmere, and gave her the most classic Denim color, like modern urban women-strong and soft. Really realized low -key luxury.
